## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4/1, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Smithers (US patent 3,088,155).

The patent to Smithers discloses the invention as is claimed, including a wiper blade assembly (figs. 1,2) for a motor vehicle having a flexible elongated wiper strip (12) that has opposite grooves therein which receive rail portions (14) of a rail spring. An elastic support member (10) extends along the wiper strip and includes a plurality of openings therealong through which connection members (8) are fitted. The connection members have insertion portions which extend through the holes in the support member with claws integrally formed on the ends thereof for engaging the rail spring.

With respect to claim 5, note claws (24) on the support member which extend along the entire length of the wiper strip and engage the rail spring to hold both the rail spring and the wiper strip.

***Allowable Subject Matter***

Claims 3 and 4/3/1 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 7-12 are allowed.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
